# Get the best flooring solutions from us

Connect Flooring is an Aussie business located in Keysborough VIC committed to helping everyday Australian's renovate their spaces from the floor up. Our innovative modular flooring solution allows you to transform your garage, warehouse, business or retail space with ease. We have an exclusive and unique flooring solution designed specifically to suit the needs of a wide variety of commercial and residential spaces. We have also unique and versatile storage solutions manufactured for the purpose of making the most of your garage, without eating into your floor space.

We provide you with a stylish and modern lighting solution that combines contemporary design with superior functionality that adds a touch of elegance and sophistication to any space. The stand out feature of the Connect Tile is the easy to clean design, which allows soil and spillages to effortlessly fall straight through the ribbed, flow-through surface. The range of Connect Tile **Garage Flooring** tiles are an efficient and aesthetically pleasing solution for projects and events of any size. Our tiles will not mark from tyres and have a compressive strength of 3120 psi and over 31 tonne of rollover capacity.

We also have Garage Flooring packs which consist of Connect Tile single and double Garage packs, which is the easy way to transform your garage floor with our best selling, and most versatile tile style. Our tile has excellent resistance to alkalis, acids, and solvents, and our tile is non-slip, which protect from falling. Give your garage, business, warehouse or gym a new and glamorous look. Choose your required tile from our exciting collection. If you have any queries regarding our products then feel free to ask us. We will be happy to assist you.
